    - **Public Hearing Comments limited to 3 minutes**: Discussion included confusion regarding whether the parcel under question had been combined with a contiguous parcel resulting in a changed parcel number.
    - **Public Hearing Closed**
    - **Commission Discussion:** Board members have received a complete Application from Mr. Mims, including a detailed site plan. Mr. Mims summarized the site plan and basis for the SUP application. It was noted that the original Application Parcel # ended in -02, this was corrected to -03. The Commission noted that the confusion was part of the ongoing efforts of the Planning Commission to correct the township zoning map and that the -03 parcel at 31915 52nd Street, Bangor MI 49013 was correct and **zoned commercial**. Chairman Butler had researched this issue and confirmed that the parcel number, and zoning was correct, however he suggested the PC confirm this with the Board. The confirmation request as per discussion is presented below.

- **Parcel ID # 80-03-001-035-00 Scott Lake Campground, 45811 24th Ave., Bloomingdale, MI 48026. REZONE AND SUP REQUEST.**
    - **Public hearing comments limited to 3 minutes.** Comments were favorable with an emphasis on limiting further development or expansion.
    - **Public Hearing Closed.**

- **Commission Discussion:** The parcel is 8.8 acres and approximately 1/4 of the area occupied by the campground. The remaining area is in Waverly Township including the waste facility. The history of the campground land was discussed starting with the Scott Laker Youth Camp in ~1953 including zoning "marsh and wet zone" residential in the 1970s, to the present owners bringing the partially developed land as a campground to a more natural state. Discussion included the detailed and complex violations and orders to restore under the NREPA by EGLE. Noted was the fact that the owners not only complied but were very cooperative with EGLE in doing so. Concerns regarding waste treatment were addressed by construction of a waste facility well regarded by the Van Buren County Health Department and setting a higher standard for protecting surface and ground water in the area. In addition, it was pointed out

that the parcel under question is 8.8 acres, a larger ~80-acre parcel of wetland and upland bordering north of the campground, though partially in Arlington is under the jurisdiction of Waverly Township and is owned by the owners of the campground. It was pointed out by comments and discussion that this is a sensitive-critical area for water quality and fishery. The northeast area of North Scott Lake is in Arlington, with some development and is an extension of the area. It was suggested that the campground owners place the critical wetlands under a stewardship program if appropriate. It was also discussed that limitations and controls of the parcel could only be made if the 8.8 acre parcel was placed under a special use permit, such special use is only permitted in an Agricultural District. Being rezoned AG will allow issuing a Special Use Permit with conditions.
